

The educational courses on Friday, June 10, 2011, are not included in the general admission registration; all educational courses are additional fees and are ticketed. There are three educational tracks to choose from. Total CE credit for each course is four. All educational courses will include continental breakfast and a morning refreshment break from 10:15am – 10:30am.

C 01: COMPREHENSIVE REVIEW OF DENTAL SLEEP MEDICINE

Ticketed Event - Limited to 55 attendees

8:00AM – 12:30PM

FEE: \$85 members; \$125 nonmembers

OVERVIEW: This educational track is designed for those newer to dental sleep medicine. A review of sleep medicine will quickly improve the participant's knowledge base in sleep and what can go wrong. Our expert faculty will then take the participant through the basics of treating sleep apnea with oral appliances, including the patient examination and appliance type selection, as well as titration considerations and complications management.

TARGET AUDIENCE: Beginner

SPEAKER: Leopoldo Correa, BDS; Noshir Mehta, DDS; Jonathan Parker, DDS, Diplomate, ABDSM; and Noah Siegel, MD

TOPICS INCLUDE:

1. Review various oral appliances for obstructive sleep apnea;
2. Explain TMD and the sleep apnea patient including methods for preventing and managing symptoms from the use of oral appliances; and
3. Evaluate various clinical cases of sleep apnea treated with oral appliance therapy.

C 02: ADVANCED CLINICAL TOPICS IN DENTAL SLEEP MEDICINE

Ticketed Event - Limited to 275 Attendees

8:00AM – 12:30PM

FEE: \$85 members; \$125 nonmembers

OVERVIEW: Timely and useful information will be presented that will help the experienced practitioner improve care by adding to their knowledge-base. Clinically-oriented topics will improve the participants understanding of advanced concepts and improve their ability to critically evaluate the current literature and industry supported claims.

TARGET AUDIENCE: Advanced

SPEAKERS: Steve Carstensen, DDS, Diplomate, ABDSM; Gail Demko, DMD, Diplomate, ABDSM; Barry Glassman, DMD, Diplomate, ABDSM; Marie Marklund, DDS, PhD; Todd Morgan, DMD; and Hemant Sawhani, MD

TOPICS INCLUDE:

1. Review dental team systems for dental sleep medicine;
2. Discuss case management of pediatric obstructive sleep apnea;
3. Review home sleep testing; and
4. Discuss the management of oral appliance therapy complications.

C 03: SPECIALIZED TOPICS IN DENTAL SLEEP MEDICINE

Ticketed Event - Limited to 475 Attendees

8:00AM – 12:30PM

FEE: \$85 members; \$125 nonmembers

OVERVIEW: Participants can expect to improve their understanding of dental sleep medicine in specialized areas of expertise. Selected topics will be presented in depth, allowing the practitioner to improve their skill in understanding and/or treating complex concepts and cases.

TARGET AUDIENCE: Advanced

SPEAKERS: Kathleen Bennett, DDS, Diplomate, ABDSM; Dena Garner, PhD; Jonathan Parker, DDS, Diplomate, ABDSM; Ronald Prehn, DDS, Diplomate, ABDSM; and Michael Simmons, DMD

TOPICS INCLUDE:

1. Explain the effects of mouthpiece use on gas exchange parameters during steady state runs in college males and females;
2. Discuss how to implement a multidisciplinary approach to dental sleep medicine;
3. Review the recent findings related to TMD and nocturnal bruxism; and
4. Assess a patient using information provided from a live patient demonstration.

MEET THE PROFESSORS

Ticketed Event - Limited To 30 Attendees Each

12:30PM – 1:30PM

FEE: \$50 members; \$60 nonmembers

During these small-group sessions an expert in dental sleep medicine will lead an informal discussion on a single topic.

M 01: HOW TO WRITE AN ABSTRACT

Fernanda Almeida, DDS, PhD

M 02: TITRATION OF OAT IN THE SLEEP LAB

John Remmers, MD
