

Provide Another Option to CPAP: Oral Appliance Therapy

PATIENT SATISFACTION

Oral appliances are small, portable, & don't require electricity making them easy to use.

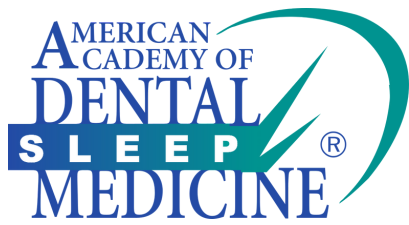

PATIENT OUTCOMES

Oral appliances are a proven, effective first-line therapy for obstructive sleep apnea and snoring.

PROVIDER CONVENIENCE

OAT devices are provided by local AADSM qualified dentists, not DME companies.

Visit us at www.AADSM.org/find to find a local AADSM qualified dentist near you.
